

I want to learn without pain.
Just give me the essentials
in small chunks, and some
cool technology. I will figure
things out...

Student

...and I could build a
product to replace
Mom and Dad
(like do my laundry).
I miss Mom and Dad.

I want to get
students excited
and knowledgeable
about Software
Engineering...

Faculty

and inspired
and capable to
innovate while having
a positive impact on
society.

**Interests: Active learning, Team-based projects,
Real-world simulation, Socially-responsible innovation**
